

PRESS RELEASE

SS32 Systems Get New Support Option

Dallas, Texas and Southfield, Michigan, May 29, 2009: A new partnership gives new choices to SS32 radio automation users. Dave Scott, former CEO of Scott Studios, and ENCO Systems Inc., another leading provider of Digital Audio Delivery Systems, are teaming to service and support SS32 stations. The venture is Scott-ENCO.

"I've rehired a number of my best techs after Google laid them off," says Scott. "We'll support and tune-up software and hardware for SS32 systems. Scott-ENCO will provide new options for this great gear. Tons of SS32 owners have asked me to do this. In partnership with ENCO, we'll maintain SS32 systems affordably. If upgrades are appropriate, Scott-ENCO has great hardware and the experience to deliver the best bang for the buck."

"It's exciting to team with Dave Scott to deliver the support these stations want," says Gene Novacek, President of ENCO Systems. Novacek adds, "For stations that have outgrown their software, our new [Presenter](#), developed with valuable input from Dave Scott, is the most user-friendly available. Yet it's an affordable upgrade that adds considerable new power and features."

"I'm sure that good support will be available for SS32 from the 'factory'", says Novacek. "However, we hear questions from SS32 users. We'll provide a choice for support and another upgrade path," Novacek continues. Scott adds, "With the inventor of SS32 now teaming with a dependable radio support organization, our combined track record speaks for itself."

Support and service are available beginning June 1, 2009 by calling 1-248-603-2400. The website is ScottEnco.com.

About ENCO (www.enco.com)

ENCO Systems is a leading provider of Digital Audio Delivery Systems for demanding television and radio organizations worldwide. ENCO is headquartered in Southfield, Michigan with offices in Nashville, South Carolina and India and retains dealers and distributors throughout the rest of the world.

About Dave Scott (www.DaveScottCompanies.com)

Dave Scott founded Scott Studios in 1992 and was CEO through 2004 and was Executive VP and General Manager of dMarc in 2004 and 2005. Under his leadership, 4,600 radio stations chose the company's studio equipment. Before that, Dave Scott was Chairman and CEO of TM Century, Inc. and Century 21 Programming, Inc., a noted Dallas jingle company and radio programming vendor for several decades. Those companies became TM Jones and are now the TM Studios division of Dial Global, a large vendor of programming products to the radio industry. Since then, Scott operates RadioTraffic.com, an Internet based traffic and billing software and UnattendedWeather.com, an automated 24/7 weather service.
