

DAD Option

COOLDAD

CoolDAD integrates Adobe Audition® (CoolEdit) with DAD for fast access to powerful multitrack editing tools from DAD workstations. CoolDAD extends DAD's edit capability from the standard simple cut and paste editor to full function multi-track capabilities at the touch of a button.

DAD CoolDAD Benefits

- Quick access to robust editing tools
- No external translation required
- Avoids redundant data entry for cut information

CoolDAD Summary

DAD's CoolDAD option integrates the popular Adobe Audition (formerly CoolEdit/CoolEdit-PRO) multitrack audio waveform editor with DAD. CoolDAD enables users to export audio cuts directly from Audition into the DAD database. Markers for cues, as well as cut information can be created during the edit session and exported directly into DAD. Files originating in DAD can be edited in Audition with the simple toggle of a button that switches from DAD's standard editor to the Audition application. CoolDAD allows large audio files to be segmented to just those areas of interest prior to export, greatly speeding the process.

Requirements DAD license or EZ-LIB stand-alone option, Adobe Audition CoolDAD supports Cool Edit Pro v1.2, 1.2a, 2.0+; Cool Edit 2000; Adobe Audition v 1.0 & 1.5

Why buy from ENCO?

ENCO delivers world class audio delivery and automation tools to the most demanding television and radio broadcasters on six continents. Our solutions range from large multinational television live broadcast applications to the needs of the small market unattended radio station. We bring our customers flexible solutions that work the way they do while delivering exceptional value, performance and reliability.

ENCO Service and Support

ENCO's full line of support options ranging from implementation guidance and training, to 24/7 telephone support will protect and increase the return from your automation investment. Our engineers understand your business challenges and are ready to help you achieve your goals. ENCO software products are regularly updated with powerful new features and capabilities to bring ever increasing value to your operation.
